VALIDATING TICKETS

If the ticket is a winner on the instant portion, the player can choose to validate the ticket right away or wait until after the nightly draw. If the player wants to validate their ticket immediately and the prize is under your maximum payout limit, the player must sign their ticket and give it to you for validation. Tickets need to be validated before paying out the prize. The signed ticket and receipt must be returned to the player for the nightly draw.

Players also have the option to validate both portions at the same time (after the nightly draw for that ticket). If there is a win of \$1,000 or more on the instant portion, this prize can only be claimed after the nightly draw.

TICKET VOIDS/CANCELLATIONS

A **HIT OR MISS** ticket may only be voided/cancelled:

- Before the Nightly draw
- At the retail location in which it was purchased.

To void a ticket, you will need to call our Customer Care Centre. A Customer Care Representative will provide access so you can void/cancel the HIT OR MISS ticket on the terminal.

All void/cancelled tickets must be kept for 3 months.

IMPORTANT REMINDER

The Customer Display Unit (CDU) must be operational at all times. If your CDU is not working for any reason:

- **Power Reset** your lottery terminal using the switch located on the back of the terminal (underneath the two black power cords).
