

ATLANTIC LOTTERY COUPONS

On occasion, Atlantic Lottery may set-up special player programs, incentives and promotions at various retail sites. Some promotions may issue coupons that you will need to validate.

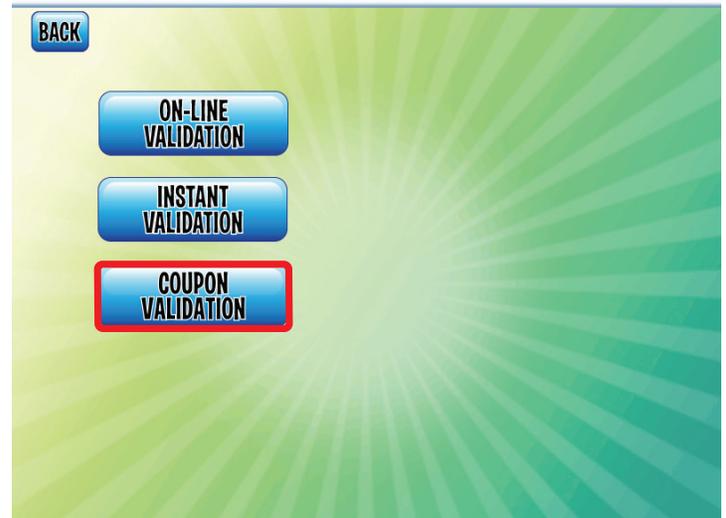

A player must present coupon before purchase.

If a player presents you with a coupon, here's what you need to know:

VALIDATE COUPON

1. Select **VALIDATE** on the main selling screen of your lottery terminal.

2. Select **COUPON VALIDATION**.

3. **SCAN** the coupon barcode. If the barcode will not scan, manually enter the number located below the barcode to validate the coupon.

4. A screen will appear for you to select the appropriate game.

WHEN IN DOUBT,
CHECK ID.

PLAYER RECEIPT

The Player Receipt contains the results of all validations with control numbers. There is a tally on the bottom of the Player Receipt. The total of payouts and sales (credits & debits) means easier entry of lottery transactions into your POS system. The value of all free draw tickets is included.

When you validate a coupon, you will notice a "P" on the bottom of the player receipt. This shows the validation results of a promotion coupon.

Make sure to give the Player Receipt to the customer along with the coupon and the tickets that were validated and/or purchased.
