

KNOW THE ODDS

PLAYING GAMES OF CHANCE

The one thing all games of chance have in common is that winning or losing is based on randomness. While the dream of winning is exciting, it's important to know your true odds of winning the top prize.

VIDEO LOTTERY TERMINALS (VLTs)

Atlantic Lottery offers a wide variety of video lottery products, including reel games, poker games and keno. There are many differences among games, including:

- the game rules,
- how the games are played,
- the number and value of prizes,
- how frequently prizes are awarded, and
- the odds of winning particular prizes.

GAME OUTCOMES

- As with all games of chance, the outcomes on video lottery games are determined randomly.
- Each game, and its outcome, is determined randomly by the video lottery terminal the moment you initiate the game through the play or spin button. Although it may take a few seconds to display the result, nothing you do will influence the outcome of the game.

ODDS

Every play has the same chance of being a winner or loser as the one before it and the one after it; however, your odds of winning prizes of different values vary based on the size of the prize available to be won.

For example, the average odds of winning the highest prize combination in most video lottery games can vary from 1 in tens of thousands of games up to 1 in millions of games while the odds of winning a smaller prize are better.

PRIZE PAYOUTS

- The maximum amount that a player can bet on one play is \$2.50 and the highest prize permitted in any game ranges from \$500.00 to \$1,000.00*.
- Prize payouts vary from game to game and play to play depending on the amount that you wager on each play.
- The payout percentage of every video lottery game is over 90%. This means that over 90% of all wagers are returned to players in prizes in varying amounts over time.
- Even though you may win on some plays, all players will, over time, lose an average of up to 10% of the amount wagered. This also means that players who reinvest all of their winnings to place new wagers without cashing out will eventually lose all of the money that they have wagered.

*\$500 in NB and NL, \$1,000 in PEI and NS.

SPORTS PRODUCTS

The odds for the sports games PRO•LINE, FANTASY, FUTURES and STADIUM BETS fluctuate with the sporting events selected by the player. Players can choose to wager on outcomes with higher odds (underdogs) or lower odds (favorites).

They can also choose to wager on more selections (up to eight on PRO•LINE) or fewer selections (as few as one on FUTURES) per ticket. Choosing more underdogs and playing more selections on a ticket will increase the potential payout, but it also means a lower likelihood of winning.

TICKET LOTTERY – DRAW GAMES

These are the games where you either choose your own numbers or accept randomly generated “Insta Pik” numbers. Top prizes tend to be large, but so are the odds of winning the top prize; the value of, and odds of winning top prizes vary significantly between games.

Odds of winning the top prize for our draw games:

LOTTO MAX	1 in 28,633,528
LOTTO 6/49	1 in 13,983,816
TAG	1 in 600,000
Atlantic 49	1 in 13,983,816
Bucko	1 in 249,800
Twist	1 in 2,009,566
Salsa Bingo	1 in 260,419
Keno Atlantic	1 in 2,147,181

TICKET LOTTERY – INSTANT GAMES

Atlantic Lottery offers a wide variety of Scratch’N Win and Breakopen tickets, each with a unique prize structure. The overall odds of winning are clearly stated on the back of each ticket and vary depending on the prize structure and number of tickets printed for each game.

Overall odds of winning are:

Scratch’N Win	approx. 1 in 1.00 – 1 in 4.60 <i>(depending on game played)</i>
Breakopen	approx. 1 in 7.56 – 1 in 12.50 <i>(depending on game played)</i>

TABLE GAMES

Table games are available at our Red Shores casinos in Charlottetown and Summerside, PEI. Odds and game information are available on site at the casinos.

For information on all of our games and odds visit corp.alc.ca/Games.aspx

NOTE:

The odds in this brochure were taken from the series in circulation at the time of publication of this brochure. The odds of winning a prize depend on ticket series. Check ticket backs for information.
