## HOW TO PLAY

---

### Base Game

- The slot features a 6x4 reel set, where the 6th column is made up of four individually spinning reels, which can contribute to winning combinations.
- Winning combinations may contain only one symbol from each adjacent reel, beginning with the far left reel. Only highest winner paid per winning combination.
- Like symbols or their substitute, on a single reel are not part of the same winning combination but may create separate winning combinations. Wins on different ways are added together.
  - Paytable reflects current bet configuration.

---

### Reel Set

- If all four reel positions in the 6th column show an O symbol, there is a chance for all the O symbols in this column to transform into vault symbols.
- When all four O symbols in the 6th column transform into vault symbols, the Vault Feature will be triggered.

- Choose a Vault to reveal a base number of Free Spins to play with. Vaults contain 4, 8, 12 or 16 Free Spins as an award.
- Extra Free Spins can be awarded. One Free Spin will be added to the current number of Free Spins for every O symbol which landed on the first 5 reels.
  - The Free Spins Feature will begin once the total number of Free Spins has been calculated.
- The Wild symbol appears in Free Spins only, on reels 2, 3, 4, and 5.
- The Wild symbol substitutes for all symbols except the O symbol and the vault symbol.
