In the event of technical difficulties resulting in a dropped connection to the game server, the game you were playing is saved automatically and will load the next time you establish a connection to the game server. You will not be able to reconnect to the game server for the first 30 seconds after the disconnection.

Note: In case of malfunction all pays and play are voided; any bet that was not yet accepted will be voided, any bet that was unsettled will be refunded.

2. HOW TO PLAY

Note: If you do not have enough money to play a game, the bet can be set to the minimum selectable amount through a dialog window informing about this.

All winning ways pay from left to right, beginning with the far-left reel. All way win symbols must appear on consecutive reels. Wins on different ways are all added. Only the highest winning combination on each way is paid. Winnings from Free Spins are added to the total win.

The auto spin feature does not automatically start free spins - player input is required. (Available only for specific jurisdictions)

Free Spins cannot be triggered again during the bonus.

The **Red Ingot meter** starts with the value of the bet from the triggering game.

A total of 5 **Gold Ingot**, **Silver Ingot** may appear per free spin.

After all **Free Spins** have been played, the value in the **Red Ingot meter** is multiplied by the value in the **Purple Ingot meter**.

Each **Red Wild**, **Purple Wild**, **Blue Wild** or **Green Wild** symbol adds a coin to the corresponding pot.

An increased number of coins in a pot has no effect on game play.

Only 1 color of wild symbol may appear per free spin.

3.6. Splendid Ingot Bonus

One or more **Gold Ingot** and one or more **Silver Ingot** in any position during the base game triggers the **Splendid Ingot Bonus**.

If fewer than 15 **Gold Ingot**, **Silver Ingot** appear on the reels in the triggering game, Ways wins are paid and 3 respins are awarded. If respins are awarded, all symbol positions lock for the remainder of the bonus.

If any combination of 15 **Gold Ingot**, **Silver Ingot** appears on the reels in the triggering game, no respins are awarded.

All **Gold Ingot** values from the triggering spin are added to the **Red Ingot meter** and all **Silver Ingot** multiplier values from the triggering spin are added to the **Purple Ingot meter**.

Each unlocked symbol position is a separate reel during the bonus.

Only **Gold Ingot** and **Silver Ingot** symbols are available during the bonus.

Any **Gold Ingot** or **Silver Ingot** that land during the bonus are added to the relevant meter and the number of respins resets to 3.

If the grid is filled, any remaining respins are not played.

After all respins have been played, the value in the **Gold Ingot meter** is multiplied by the value in the **Silver Ingot meter**. If the grid is filled, the bonus win is multiplied by 2x.
