How to Play

Introduction

Pixiu's Mad Moose Megaways™ is a Megaways™ slot featuring three game modifiers, a free spins bonus and 3 progressive jackpots.

Megaways™ is under license from Big Time Gaming.

How to Play

Mad Moose Megaways™ only pays from left to right starting with the left-most reel.

Select your desired bet using the stake menu window.

Once ready, click the button to start the game.

Winning Payouts

The Paytable, showing payouts for winning symbol combinations, is accessed by clicking the 'i' symbol on the main interface.

Winning combinations must start from the leftmost reel, and the symbols have to be on consecutive reels. Winning combination prize is calculated by multiplying the winning combination payout as shown in the Paytable by your bet.

Total win amounts are shown for each winning spin. In the case of large wins, a win pop-up opens displaying the total win of the spin.

Bonus Symbol

The bonus symbol is a scatter symbol and triggers the free spins bonus.

- 3 x Bonus symbols awards 8 Free Spins.
- 4 x Bonus symbols awards 10 Free Spins.
- 5 x Bonus symbols awards 12 Free Spins
- 6 x Bonus symbols awards 14 Free Spins.

Mystery Symbol

The mystery symbol lands randomly and transforms into a single symbol from the paytable.

Wild Symbol

The wild symbol can appear on all reels except reel 1.

The wild symbol substitutes for all symbols except for the free spins bonus, mystery symbols and jackpot symbols.

Jackpot Symbol

The jackpot symbol is a scatter symbol and triggers one of three progressive jackpots.

- 4 Jackpot Symbols trigger the Mad Jackpot
- 5 Jackpot Symbols trigger the Crazy Jackpot
- 6 Jackpot Symbols trigger the Mental Jackpot

Modifiers

On any paid spin, one of three modifiers can randomly trigger;

Moose on the Loose: Triggers after a losing spin or at the end of a cascade sequence. The 4 lowest paying royal symbols are destroyed and removed from the subsequent cascade

Wild Moose: Triggered at the end of any paid or free spin, between 2 – 5 random wilds are dropped onto the reels

Mystery Moose: A generic mystery symbol that transforms into a single symbol from the payable lands randomly on the reels. The feature is triggered at the start of any paid or free spin

Free Spins Bonus Round

3x scatters trigger 8 free spins with +2 free spins awarded for every additional scatter

The player begins free spins with a 1x starting multiplier

All cascades increase the multiplier +1

Multipliers do not reset

On any losing free spin, one of the three Mad Moose Modifiers may be randomly triggered

Free spins can be retriggered. +3 scatters awards +4 free spins and +2 additional free spins for every additional scatter

If the player wins less than 10x total win during the free spins round, they keep receiving +1 free spin until the total amount is equal to or greater than 10x

There is no cap on the amount of times free spins can be retriggered or on the maximum multiplier that can be reached.

All jackpots can be won multiple times during a free spins round.

When free spins are triggered, the player can collect their spins and start the free spins bonus or they can gamble their starting number of free spins.

Only 2 successful gambles are permitted.

Free spins automatically begin after an unsuccessful gamble.

Terms and Return to Player

In the event of a game in real play being interrupted, (i.e. started but not completed due to connectivity issues or accidentally closing the browser, etc.), depending on the previous state of the game, it will either resume from the point of the last draw, or display the outcome of the game already in play. Any winnings will be correctly credited to your account and will be exact, according to the result prior to the game being interrupted.

In the event of a non-responsive game or problem during a bonus round, the game will repeat the incomplete game and display the result to you when you next launch the game.

The outcome of any bonus round is predetermined by the server before you enter the bonus round.

The odds of getting a particular outcome are always the same at the start of every game. The odds do not vary based on prior outcomes, bet size, balance size, time of day, day of the week, etc. For example, if the top award is won on a given play of the game, the chances of winning the top award on the next play are exactly the same. Likewise, prior game losses do not influence or change future games in any way.

The theoretical average return to player (RTP) is 96.30%. This RTP represents the long-term expected payback of the game. Malfunction voids all pays and plays.
