## **Cascade Feature**

---

Any line or scatter win trigger the *Cascade* feature.

After wins are awarded, all symbols in winning combinations disappear. Empty symbol positions on each reel are filled as symbols cascade from above.

Each time the reels cascade, wins are evaluated and awarded. After each cascade of the reels, wins are multiplied by the current cascade multiplier. The cascade multiplier starts at 1x at the beginning of each wagered spin and increases by 1x after each cascade of the reels, up to a maximum of 10x.

Reels continue to cascade until no winning symbols combinations are created as a result of the cascading reels, or until 20 consecutive cascades have occurred.

## Expanding Wild Feature

---

If a Red Hot Joker Symbol appears in any position on reel 3, all symbol positions on that reel transform into Wild Red Hot Joker Symbols if a winning combination is possible.

Wild Red Hot Joker Symbol substituting in a line win multiplies that win by 2x.

If a Joker Symbol appears in any position on a reel, all symbol positions on that reel transform into Wild Joker Symbols if a winning combination is possible.

Wins are evaluated after all symbol transformations are complete.
