In the event of technical difficulties resulting in a dropped connection to the game server, the game you were playing is saved automatically and will load the next time you establish a connection to the game server. You will not be able to reconnect to the game server for the first 30 seconds after the disconnection.

**Note:** In case of malfunction all plays and bets are voided; any bet that was not yet accepted will be voided, any bet that was unsettled will be refunded.

## 2. HOW TO PLAY

**Note:** If you do not have enough money to play a game, the bet can be set to the minimum selectable amount through a dialog window informing about this.

All winning ways pay from left to right, beginning with the far-left reel. All way win symbols must appear on consecutive reels. Wins on different ways are all added. Only the highest winning combination on each way is paid. Winnings from Free Spins are added to the total win.

The auto spin feature does not automatically start free spins - player input is required. (Available only for specific jurisdictions)

On the info bar, you can view the current BET, your BALANCE and your current WIN, displayed in either credit or your real currency, depending on the current user's choice (Available only for specific jurisdictions). To toggle between credit or your real currency, click in the BALANCE area (Available only for specific jurisdictions).
