Scarab Link

The High Priestess has returned, ready to bestow even more blessings on those worthy enough to seek the mystical treasures of ancient Egypt in ***Scarab Link***! Collect Scarab symbols to release the *Wild Stays Charges Then Pays* feature, where Scarabs charge their symbol position and turn wild on the 10th spin. Trigger the exciting *Hold and Respin Bonus*, which offers 3 initial free respins on independent reels for cash prizes and jackpots!

Wild Stays Charges Then Pays Feature

Each time a Scarab symbol appears on the reels in the base game, its frame is locked on the reels in batches of 10 rounds. On the 10th round, the *Wild Stays Charges Then Pays* feature activates and all Scarab frames are transformed to Wild symbols. The reels are then evaluated and all wins are paid. The reels are reset and all Scarab frames are removed on the following spin. Scarab frames are remembered separately for each bet level.

Hold and Respin Bonus

The *Hold and Respin Bonus* is triggered when three Scarab Link scatter symbols appear anywhere on the centre reels. These symbols are found on reels 2, 3, and 4 only.

Triggering the *Hold and Respin Bonus* awards an initial 3 respins. During the first respin, at least 6 prize values or Major, Minor, or Mini jackpot symbols appear on the reels and remain locked in position for the remainder of the bonus.

During each respin, additional prize values and jackpot symbols may appear. All revealed prize values and jackpot symbols are locked in position for the remainder of the bonus.

Every time a prize value or jackpot symbol appears, the respin counter resets to 3 respins remaining.

Fill all 20 positions to win the Grand Progressive Jackpot.

Each Major symbol awards the Major Jackpot.

Each Minor symbol awards the Minor Jackpot.

Each Mini symbol awards the Mini Jackpot.

The *Hold and Respin Bonus* continues until no respins remain or until all 20 reel positions are filled.

The *Hold and Respin Bonus* can be triggered at any bet level.

The *Hold and Respin Bonus* cannot be retriggered.

Reels used in the *Hold and Respin Bonus* are different from the reels used in the base game.

The *Hold and Respin Bonus* is played at the same coin value as the triggering spin.

After the *Hold and Respin Bonus* ends, all prize values and jackpots are awarded.

Mystery Grand Progressive Jackpot Feature

After the reel spin of any base game, the Grand Progressive Jackpot may be awarded.

Rules

Misuse or malfunction voids all pays and plays.

All line win symbols must appear on a played line and on consecutive reels, beginning with the far-left reel.

Only the highest winner is paid on each payline. Line wins are multiplied by the coin value on the winning line. Coinciding line wins on different paylines are added.

Bonus wins are independent from line wins and are added to the total amount paid.

Wild symbol appears on all reels in the base game.

Scarab Link scatter symbols appear in the base game only.

The *Hold and Respin Bonus* is played on independent reels. All awards are scattered. No paylines are used.

More than one Major, Minor, or Mini Jackpot can be won during the same *Hold and Respin Bonus*.

The Grand Progressive Jackpot is a shared progressive. The growth is funded by a fixed percentage of each bet placed by all players.

The likelihood of winning the Grand Progressive Jackpot, Major Jackpot, Minor Jackpot, or Mini Jackpot awards are not equal.

The odds of winning the Grand Progressive Jackpot is proportional to the amount wagered.

For example, a player playing at a 0.20 coin value has twice the chance of winning the Grand Progressive Jackpot as a player playing at a 0.10 coin value in the same currency. The expected return to player is the same for both players. Therefore, the game is completely fair, offering the same odds per amount per bet currency.

The amount paid for the Grand Progressive Jackpot is approximately the amount seen on the progressive meter when the win occurs. Potentially, the awarded progressive could be somewhat higher because of display delays. In an exceptionally rare case, two players may simultaneously win the same progressive jackpot. The order of winners is determined solely by the timestamp applied to each transaction request as it is received by our servers. The official winning outcome belongs to the player whose transaction timestamp is first. The player whose timestamp is second will win the progressive re-seed amount if their winning outcome occurred just after the other player’s win, but before the meter was able to reset.

Grand Progressive Jackpot is not available in free play mode.

Wins are shown in currency.

In some jurisdictions, regardless of bet size, there is an award cap on any single transaction, excluding the Grand Progressive Jackpot. See the paytable for details. A transaction includes the results of the bonus, plus the outcome which launched the bonus. When the bonus ends, if the award cap is reached it will be applied on total amount paid, excluding the Grand Progressive Jackpot.

Additional Information

Lost Connection During Jackpot Win

In the unlikely event of a lost connection or game reset during a jackpot-triggering spin, the jackpot will be awarded. Notification of the jackpot win will not appear on the screen when the game is reloaded, and the win will not be reflected in your account balance. Any standard wins will be reflected in your account balance. Continued play, whether in this game or any other, does not affect the jackpot payout.

Expected Payback

In accordance with fair gaming practices required in most legal jurisdictions worldwide, each and every game outcome is completely independent, except in cases where one spin unlocks a feature for a subsequent spin or series of spins, per the game rules. The odds of getting any particular outcome are always the same.

The odds do not vary based on prior outcomes, bet size (except the jackpots), balance size, time of day, day of week, etc. For example, if the top award is won on a given spin of the game, the chances of winning the top award on the next spin are exactly the same. Likewise, prior losses do not change future odds.

The expected payback reflects the theoretical return across a very large number of spins by numerous players over an extended period of time. The results for any given player over a play session can vary widely from this long-term, expected average in either direction. The fewer the number of games played, the wider the normal variance of actual payback that may be experienced.
